

# JANHVI GOJE

*Aspiring Data Analyst / Business Analyst | M.Sc. Wirtschaftsinformatik Student*

**Data-driven MSc Information Systems student at TU Berlin** with hands-on experience in Python, SQL, Power BI, and predictive analytics. Skilled in turning raw data into dashboards, models, and strategic insights. Looking for a working student or internship role in Data Analytics / Business Intelligence.

**Location:** Berlin, Germany

**Phone:** +39 327 570 8400

**Portfolio:** <https://janhvigo.github.io/portfolio/>

**Email:** janvigoje798@gmail.com

## EXPERIENCE

### Private Tutor (Python Programming) | 10/2023 – Present

Freelance | Rome, Italy (Remote)

- Trained high school and university students in 1:1 Python tutoring, taking them from zero knowledge to beginner-level proficiency.
- Taught core programming concepts (loops, functions, data structures) and data analysis tools (Pandas, NumPy).
- Designed customised lesson plans that improved students' exam results by 25–35% on average.

### TEDxYouth Communications, Editorial and Marketing Director | 06/2021 – 12/2021

Wockhardt Global School | Aurangabad, Maharashtra, India

- Led editorial and marketing strategy for TEDxYouth events, managing communications and outreach.
- Used Google Analytics and Excel to track engagement and optimise campaign performance.
- Worked with cross-functional teams to deliver high-impact event content and increase audience reach.

## EDUCATION

### Technical University of Berlin | 10/2025–09/2027 (Expected Graduation)

Master of Science in Information Systems Management (Wirtschaftsinformatik)

### LUISS Guido Carli | 09/2022–07/2025

Bachelor of Science in Management and Computer Science

- Grade: 110L

## RELEVANT PROJECTS

### Airbnb Market Analyser – Data-Driven Pricing Tool

SQL, Streamlit | 08/2025

- Built a data analytics tool for Airbnb Berlin hosts using SQL to analyse revenue by neighbourhood, price distribution, reviews, and property types.
- Developed an interactive Streamlit dashboard that lets users visualise market trends and benchmark pricing in real time.

**Why Do Credit Card Customers Leave? – Predicting Churn with Data**

R, Data Analytics | 10/2024

- Analyzed a real-world banking & purchase dataset (≈ 20,000+ customers) to predict customer churn and flag high-risk accounts.
- Enhanced model accuracy from ~75% to 92% by applying KNN imputation.
- Provided actionable recommendations for data-backed retention strategies that banks should prioritise usage-based interventions over demographic profiling.

**Data-Driven CRM Analytics – Boosting Summer Campaign ROI**

KNIME, XGBoost, Power BI, GenAI | 02/2025

- Analyzed historical campaign data from 290+ retail stores.
- Performed feature selection in KNIME and tested multiple ML models, with XGBoost achieving 94% prediction accuracy.
- Built an Expected Profit model that increased projected return from €15K to €246K.
- Created Power BI dashboards to visualise geographic and demographic data.

**SKILLS**

**Programming & Analytics:** Python (Pandas, NumPy, Scikit-learn), R, SQL  
**Tools & Platforms:** GitHub, Jupyter, VS Code, MySQL, Tableau, Google Analytics, Excel (Advanced), KNIME, PowerBI  
**Data & Machine Learning:** Data Cleaning & Feature Engineering, Predictive Modelling, Sentiment Analysis, Time-Series Forecasting, Process Mining (Celonis), Data Storytelling  
**Business & Digital Skills:** CRM Analytics, Campaign ROI Modelling, Market Research, Digital Marketing, Stakeholder Communication, Requirements Analysis

**CERTIFICATES**

Google Data Analytics Professional Certificate | 06/2022  
Google Digital Marketing & E-commerce | 10/2022  
Celonis Business Analyses Badge | 02/2024

**LANGUAGES**

English (C1), German (A2), French (A1), Hindi (Native)

**PUBLICATIONS &  
FINAL THESIS**

**Bachelor’s Thesis – Artificial Intelligence in the News (2013–2024)**  
LUISS Guido Carli University | Grade: 110 e Lode | 03/2025

- Collected and analysed 10+ years of New York Times articles.
- Applied RoBERTa NLP models to classify sentiment and for time-series forecasting.
- Predicted sentiment trends for 2025–2030.

**Published Research – Generational Dynamics in the Marketing Funnel**  
International Journal of Novel Research and Development (IJNRD), [Vol. 8, Issue 8](#) | 08/2023

- Co-authored a peer-reviewed research paper analyzing how different generations engage with stages of the marketing funnel.
- Conducted survey-based data collection and statistical correlation analysis/
